Click [here](#) to download .ipynb notebook

1. The question is explained along with an example as well in the jupyter notebook itself.
2. Write well-documented code to solve those questions and print proper output for all of them.
3. Note that you are not supposed to use any libraries like numpy or scipy or similar libraries for this. You have to do this assignment completely from scratch in python and its functionalities.
4. **Explanation video** : <https://youtu.be/UXKXA-pzv94>

This is a mandatory python assignment.

FAQ's of python assignment: <https://appliedaicourse-1.medium.com/faqs-of-python-mandatory-assignment-7ada380ec770>

Note-1: Check this to see how to submit an assignment [AAIC Classroom](#)

Note-2: If you have used code from somewhere, provide those references or citations. Else it will be considered plagiarism.

Note-3: Upload both python notebook and pdf version of that notebook

Note-4: For converting Jupyter notebook to PDF please have a look at this link: <https://stackoverflow.com/questions/15998491/how-to-convert-ipynb-notebooks-to-pdf-and-html>.
